

## Money Management

*BOSS/SCHP*

*Hayward, CA*

Consumer Credit Counseling Foundation (CCCF) continued to work with Building Opportunities for Self Sufficiency (BOSS) at their Hayward, CA location - South County Housing Project (SCHP). BOSS/SCHP works one-on-one with individuals and families facing deep poverty, homelessness and multiple special needs persons by helping them with temporary residents achieve stable income and permanent housing. This includes access to a network of three emergency shelters, transitional housing, multi-unit properties, and employment services. SCHP provides their residents with temporary housing with a focus to transition their residents to permanent housing. Providing them with housing, food, medical, mental health care and tools to succeed, coming from living on the streets and into a stable home. SCHP and CCCF have partnered together to hold Money Management workshops that are held monthly for the residents at no cost.
